

Transportation:

The region has an integrated network of public transport services.

By Bus/Train (Local)

Strathclyde Passenger Transport (SPT) offers Daytripper, Discovery and Roundabout discount tickets for hop-on/hop-off travel around the region, (visit <http://www.spt.co.uk/> for details). SPT also operates a network of 12 Travel centres for all your public transport enquiries and tickets.

A low level train service operates in the city. The Scottish Exhibition & Conference Centre (SECC) has its own low level station, with frequent trains running from Central and Argyle Street stations. Tickets should be bought in advance from the ticket office at the stations. If the ticket office isn't manned they can be bought from inspectors on the train.

By Underground

The subway is a circular route of 15 stations covering the centre and west of Glasgow. The route operates an inner circle (travels counter clockwise) and outer circle (travels clockwise), a trip round the entire circle would take only 24 minutes! Trains run every 6-8 minutes and all trains stop at all stations. For more details please call **+44 (0) 141 333 3708**. Full information on times, fares, frequency and tickets as well as maps is available at <http://www.spt.co.uk/subway/>.

By Taxi

Black taxis are operated by Glasgow Taxi Owners Association (TOA). If their yellow light is on they can be flagged down on the street, or alternatively, they can be booked by calling 0141 429 7070. Journeys should be entirely metered. Private hire taxis are not allowed to stop and pick up in the street, they can only be phoned in advance.
